1   Enviroment Setup

text

2   Getting Started

2.1   Shell Path

```
cai@ubuntu:/var/www/html$
```

- @ : $: are just separators.

- cai: username.

- ubuntu: hostname or machine name.

- /var/www/html: is the current path or working directory, any commands will directly affect files in this path.

2.2   Basic Commands

```
get Current Path
```
